Investigations Thick as Leaves in Autumn--Hays on Bennett -- Bennett on Hays-The

A Pierce Duel in the Dark in Which More Scalps Than Offices are Likely to

Sr. Louis, Nov. 20. -The following interesting item appeared in one of the city papers yesterday morning: It has just leaked out that the friends of Postmaster Sami. Hays, feeling that the latter's official troubles have been due in a large measure to Deputy Postmaster Bennott, are indulging in retaliatory measures.

few days ago Inspector Brown the postal department, came re and investigated the official record of Mr. Bennett, with a view to making a report in connection with that gentleman's application for the position soon to e made vacant by the withdrawal of Mr. lays. Mr. Brown reached Washington with his report on Saturday night, and a telegram tained that Mr. Bennott's prospects for reciving the appointment he seeks have not been improved by the inquity. Mr. Brown reports that Mr. Bennett was at one into deputy postmaster under ton. A. J. Smith, formerly postmaster, and he was removed by Gen-Smith. He again became doputy under Mr. Filley, and has held the office since that time. The telegram goes on to say that, from what could be is arned there. I is pretty well understood that Mr. Bennett' ppointment as postmaster is very improb-

The following facts, fast received from a reliable source in Washington, throw a a flood of light upon the foregoing statement. It will be seen that Brown's juyer-tigation has not improved Bennett's chances of appointment, the latter will at least sec to it that Hays is not his successor, noticed, it would seem that there are good reasons why none of the competitions in the builderace for the St. Louis postoffice should fail to reach the goal. Condensed somewhat, the latest from head quarters Informs us that Bennett, through friends, placed information in the hands of a conressman, who visited Washington in his nterest, and thereby created a portion of the trouble that Postmaster Hays complains of Bennett gave out the fact that he had been in great trouble in keeping the bunds of the postmaster, out of the government funds; that he had to straighten him out several times; that the clorks handling and in charge, of money in the office become addrised and appeals for protection. Remett said an exposure might occide at any time, and that flays would not be able to show a clean necount: that dishonored checks of his had been returned, and he was running around everywhere to get

money to take them up. He further said that Hays could be suspended fat any time without much, fuss being made, as he was sure he would dread the exposure too much to do anything. Bennett said ton that his own reputation was at stake, Bennett had also talked freely with some of Hays' friends who informed him-Huys went to Washington recently to get

appointed, but failed. The fight hereases in warmth between the Benneti and Hays factions. The G.-D. opposes Pistibuc's because by was in strumental in secuting the detectives to pounce down upon the whisky ring. So Merrill and Congressman McLean are burt by Inspector Brown's investigation.

The Turiff.

WASHINGTON, Nov. 20. - Some of the evenue tariff Congressment here say that the coming recomendations of the President ind Secretary Folger, relative to the teluction of taxation, will very likely prove to combarrassing to both Republican and Democratic protectionists who favor the election of Mr. Randall to the Speakership on a platform of non-interference with the They call attention to the sugges ions made last December, by the President and Secretary Folger, and to the fact that 'engress failed to meet their recommendadons in nearly every particular. For instance secretary. Folger in his last report urged hat many articles now paying duty should pe put on the free list; that large reduc-ions must be made on fron and steel and heir manufactures in order to lessen the menues from those sources; that the duafactures should be substantially reduced and in support of this suggestion in it marks that in the courser classes of cotto labries our manufactures can compete with the world without protection. In conclusion, the secretary recommended in zeneral that there should be a careful to ision of the tariff with a view to substantia reduction.

want even further and declared in his mes The present system should be so to rised as to equalize the public burden among all classes and occupations and bring it into closer harmony with the presenleads of industry, ' ... He said there should be an enargement

of the free hat so as to unclude within it the numerous articles which yield on meonsiderable revenue; that there should be diaplification of the complex and inconsist entschedules of duties upon certain manu factures, particularly those of cotton, iron and steel, and a substantial reduction of the duties upon those articles and upon augur, wool and woollen goods. The President Incilie: "declared; "The iolal abolition of excise taxes world afmost meritably prove a serious if not matertountable obstacle to the thorough revision

of the tariff and to any considerable reduc-tion of import duties." IN VIEW OF THESE RECOMMENDATIONS f the President and Secretary Folger, and in you of the very inadequate response made thereto by Congress last March, some of the Democratic Congressmen who oppose Mr. Randall's non-interference policy pertinently suggest that consistency will demand of the President and Secretary Forger a repetition of their recommendations of fast Decemer, and they argue that the Depposed should so organ'ze the House as to be a respond with a well-considered tarm bill, making substantial reductions, on larging the free list, reducing the duty of ray materials, and, in the language of President Arthur, Prevising the prepent system so as to comulize the public hurden among all classes and occupations and bringing it into closer bumony with the

present needs of ladustry. " Organization of the Senate. RESOLUTIONS.
WHEREAS, The great value of school visitation has been already shown by the results in many counties, therefore, Resolved 1. That such visitation upor the part of county superintendents is the best means of testing the efficiency of the teacher and ascertaining the needs of 2. That efficient supervision combined

with systematic examinations and re-ports is the most effective way to improve the rural oid village schools, BEN. ALBENSWORTH, Tazewell Co., G. A. Bungss, Piatt Co., C. W. Milles, Olny Co., Committee.

Resolved, That we feel greatly benefilted by this meeting, and that we extend our thanks to Superintendent Raub, for having called us together, and for so ably assisting us. It is further the sense of this convention that these meetings be The Coming Lecture Course,

At a meeting of the directors of the local Y. M. C. A. held last evening, a lecttire committee comprising Messrs, Geo. E. Morehouse, A. H. Mills and E. A. advance proofs, figured up by the publishers, will be of interest to our citizens as a matter of reference. By comparison with the directory of 1880, the completeness of the new work and the growth of the city will be especially noticeable. The number of names in the alphabetical list s 6160, which on a basis of only two to a name would make our population over 12,000, while other publishers of directories multiply the total number by 31/2. The population is estimated at 18,000. The miscellaneous directory, besides city, township and county officers, courts, postoffice directory, &c, shows that there are in the city 18 churches, the Methodist leading with 5; incorporated companies, 12; secret and miscellaneous societies and cinbs, 28; public buildings, blocks and halls, 22; newspapers, 7 (8 daily, 4 weekly); schools-public 6, miscellaneous 5; railroad companies 5, with 11 divisions coming into the city; streets and avenues, 112; telephone subscribers, 206; cities and towns connected by telephone, 130. In the alphabetical list are given the names of all residents over 17 years of age, with business and residence. The following are the names in the majority: The Smiths leading the list with 48, followed closely by Miller (and Mueller 7) 40; Jones 35, Brown 33, Martin and Williams each 30; Meyer, Myers, Myer and Mayers 31; Young and Moore each 28; Murphy, Montgomery and Baker 22; Ryan, Taylor, Thomas and Johnson 21; Hughes, Carter and Clark 19; Davis, White and Stephens (Stevens) 18; Hall 17. Those represented with from 10 to 16 onch are Roberts, Stewart, Travis, Wilson, Wood, Humphrey, Irvin and Irwin, McClellan and McClelland, Morgan, Powers, Priest, Adams, Barnes, Barnett, Bell, Kennedy, Blenz, Foster, Gray, Grien, &c. The publishers estimate that the population in 1890, when the next census will be taken, will be from 18,000 to 20,000.

Last night Springfield citizens had a booming business mooting and action was i taken looking to securing manufacturing industries at that point. A committee of sino representative business, mon was appointed to gather such informatson in relation to manufacturing enterprises as prosecuted, and that they also correspond with parties sceking locations for factories. In the discussion it was declared that the railroads discriminate in rates against Springfield in favor of Decatur, James E. Murdoch and the Camille Ursa Peoria and other points. This matter will be looked into by the committee.
